ImNO 2015 Poster Guidelines

Please prepare a 45" x 45" poster. Velcro dots will be provided onsite to hang your poster on the poster board. You will share one side of a poster board with another presenter. Posters will be organized by consortium and your spot designated by your poster number

On your poster, be sure to clearly indicate your poster number, name, title, institution, abstract number and abstract title.

Posters are to be put up by 8 am on Monday, March 30 and removed by 5 pm on Tuesday, March 31. Any posters not removed by the deadline will be discarded.

All posters presented by students and trainees at the Symposium will be reviewed for scientific merit and organization. The top posters from each consortium will be awarded prizes in the poster competition. A small monetary award will also be given. Trainees will be notified about their awards by email within 3 weeks after the Symposium.

Please note: In order to present a poster, you must be registered for the Symposium. Someone from the primary author's group must be in attendance at the poster, should the primary author not be able to attend. If no one from the group is able to attend the conference and be at the poster, the poster will not be accepted. Only those people who have a poster at the conference will be published in the proceedings.
